

Harvey County

Estimated Economic Impact of Agriculture, Food, and Food Processing Sectors 10/7/14

18 agriculture, food, and food processing sectors were analyzed to determine their overall contribution to the Harvey County economy. 1

These 18 sectors have a total direct output of approximately \$1180 million and support 2,768.9 jobs in Harvey County. Running the model for all 18 sectors simultaneously produces the following results:

Agriculture Contribution in Harvey Co									
Impact Type ²	Employment	%	Total Value	% of Gross	Output ⁵	% of Gross			
		Employment	Added ³	Regional		Regional			
				Product ⁴		Product			
Direct Effect	2,768.9	11%	294,945,519.5	19%	1,180,051,198.1	75%			
Indirect									
Effect	863.1	4%	72,238,847.2	5%	117,402,442.5	7%			
Induced									
Effect	943.0	4%	64,271,747.8	4%	99,642,384.8	6%			
Total Effect	4,575.0	19%	431,456,114.4	27%	1,397,096,025.4	89%			

As shown in the above table, agriculture, food, and food processing supports 4,575.0 jobs, or 19% of the entire workforce in the county. These industries provide a total economic contribution of approximately \$1397 million, roughly 89% of Gross Region Product (GRP). As noted below in the calculation of Gross Regional Product, imports and institutional sales are subtracted. Therefore, counties that import a relatively large amount of goods and services will have a reduced GRP which may lead to agricultural output being greater than GRP.

Another metric used to calculate the importance of sectors in an economy is their value added as a percentage of GRP. Total value added by the 18 agriculture, food, and food processing sectors is approximately \$431 million, or 27% of the GRP. This indicates that personal income, business income, and taxes generated by these sectors account for 27% of the total economy.

¹ Article on building a contribution analysis in IMPLAN that avoids double counting: http://www.implan.com/index.php?option=com content&view=article&id=660%3A660&catid=253%3AKB33&Itemid=70

² Direct, indirect, and induced effects sum together to estimate the total economic contribution in the state. **Direct effects** capture the contribution from agricultural and food products. **Indirect effects** capture the economic benefit from farms and agricultural businesses purchasing inputs from supporting industries within the state. **Induced effects** capture the benefits created when employees of farms, agricultural businesses, and the supporting industries spend their wages on goods and services within the state.

³ Value added = labor income + indirect business taxes + other property type income.

⁴ GRP = final demand of households + governments expenditures + capital + exports - imports - institutional sales.

⁵ Output = intermediate inputs + value added.

The following tables document the overall summary numbers of the model, top industries affected by employment and output, and a listing of all industries that were analyzed.

In the top ten by employment, Farm machinery and equipment manufacturing is the top employer in the agriculture industry with 1,603.9 employees. This table also shows the amount of jobs that are created by the agriculture industry in Harvey County.

Description	Total Employment	Total Output
Farm machinery and equipment manufacturing	1,603.9	903,791,894.4
Grain farming	508.9	49,354,067.6
Food services and drinking places	190.9	11,171,990.4
Cattle ranching and farming	175.3	45,793,200.0
Animal production, except cattle and poultry and eggs	146.7	12,404,485.6
Real estate establishments	109.8	14,603,402.3
Wholesale trade businesses	101.3	19,180,819.8
Oilseed farming	80.5	21,607,236.2
Accounting, tax preparation, bookkeeping, and payroll services	74.5	5,017,157.4
Flour milling and malt manufacturing	68.0	92,571,417.0

The Farm machinery and equipment manufacturing industry directly contributes approximately \$904 million to Harvey County's economy. This table also shows how much revenue is generated in other industries by having a strong agriculture industry.

Description	Total Employment	Total Output
Farm machinery and equipment manufacturing	1,603.9	903,791,894.4
Flour milling and malt manufacturing	68.0	92,571,417.0
Grain farming	508.9	49,354,067.6
Cattle ranching and farming	175.3	45,793,200.0
Monetary authorities and depository credit intermediation activities	67.3	22,078,304.4
Oilseed farming	80.5	21,607,236.2
Imputed rental activity for owner-occupied dwellings	0.0	19,406,129.8
Wholesale trade businesses	101.3	19,180,819.8
Real estate establishments	109.8	14,603,402.3
Animal (except poultry) slaughtering, rendering, and processing	45.1	14,474,761.6

Below is a summary of all agriculture data with employment levels and output level. These values can tell how many jobs are represented by each agriculture sector and the output they contributed to Harvey County's economy.

Oilseed farming 80.47 21,319,198.61 Grain farming 508.89 48,696,147.92 Vegetable and melon farming 0.47 427,016.71 Fruit farming 0.35 360,594.03 Greenhouse, nursery, and floriculture production 1.92 1,479,054.21 Cotton farming 1.11 642,598.63 All other crop farming 7.40 4,445,602.89 Cattle ranching and farming 175.27 45,181,579.59 Dairy cattle and milk production 10.43 3,477,398.16 Poultry and egg production 6.45 9,544.351.58 Animal production, except cattle and poultry and eggs 146.74 12,238,809.59 Commercial logging 51.24 2,973,215.34 Support activities for agriculture and forestry 44.34 10,404.29 Flour milling and malt manufacturing 68.00 92,515,274.05 Animal (except poultry) slaughtering, rendering, and processing 45.06 14,153,183.94 Fertilizer manufacturing 7.81 12,006,961.82 Farm machinery and equipment manufacturing 9.03 3,659,633.40	Description	Employment	Output

All 105 counties in Kansas have Implan models and agriculture contribution summary. These values do not factor in the retail environment of food sales. Food retail is important, but in order to provide the most accurate picture of what production agricultural and processing contributes to Kansas, the retail sector was omitted.
